

May 26, 2011

Chairman Julius Genachowski  
Federal Communications Commission  
445 12<sup>th</sup> Street, SW  
Washington DC 20554

Dear Chairman Genachowski:

The proposed merger of AT&T and T-Mobile is supported by the Greater Owensboro Chamber of Commerce.

Business and industry of all sizes need and require fast and reliable Internet access, especially in a community like Owensboro where an increasing number of people require mobility that is made possible by smart phones.

The merger of AT&T and T-Mobile will allow both companies to become more responsive to their customers' needs.

Whereas cheap land and utilities and abundant workers were required for economic development in the past, the best in wireless technology is even more important in today's world. We support this proposed merger as a way to increase our Internet broadband capabilities and help grow our community.

Thank you,
